TAMPA, Fla., Oct. 11 .- Spanish newspapers report an engagement near the city of Santa Clara on Oct. 2. Fifteen hundred regulars under General Valdez were attacked by the insurgents and routed. La Quinta, in Remedios, was attacked by

the insurgents, who took the port and set it on fire. Two thousand Spanish troops were quartered there. When the fire reached them they retired from the city. At Bueccito the Spanish forces were surprised while the commander, Lieut. Francisco Lujan, was absent. In trying to rejoin his companions they mistook him for a rebel and killed him. When the mistake was discovered the troops left the fort to secure the body. The insurgents rushed in, securing the arms and ammunition, and then re-

Two of the wounded pas-gers have already succumbed to their ries. The greatest indignation prevails against these insurgents who have been guilty of this inhuman act. The insurgents have also partially destroyed with dynamite an iron railroad bridge at Camajuani and another at Tuinic, province of Santa Clara.

It is believed quite probable that representations may have been made to Spain of the wisdom of aggressive and active operations against the Cuban insurgents, but it is thought the United States the assembling of Congress. It is apparent that the Cuban Junta does not intend to urge recognition of the insurgents as beland daily events point quite as strongly to a determination to force the question on legislative channel affords the onstrained in its action. It is learned of State yesterday and in the course of the conversation something might have een said by the minister, perhaps in an-iver to the Secretary's inquiry, in the nature of a statement that operations in Cuba would be conducted with greater vigor hereafter. As the President must certainly make some reference to the insurrection in his annual message to Congress when it meets in December it would be when it meets in December it would be but natural that Secretary Olney, on whom he must rely for his information, should take steps to gather data on which to base a judgment of probable future events. It may be set wn as beyond belief that Secretary Oine has made any statement to the Spanis er in the nature of a threat to interhis stage, for this would amount to a reversal of the policy of this government in such matters. While it is true that Presi-dent Grant did, as indicated in his message Congress, entertain a belief that inter-ention in the then progressing rebellion Cuba would be justifiable, it is also true at this view never was acceptable to

It may be recalled that some such proposition was made during the last stages of the Chino-Japanese war, but It never went further than the exercise of the good offices of the interested nations to oring about peace, which function is enirely distinct from direct intervention The question is also separate from that of the recognition of the belligerency of the nsurgents, which, according to our policy and practice, must be determined purely by the facts in each case. It is pointed out here also that the circumstances a present are different from those surrounding the last Cuban rebellion, when President Grant took his stand. Then the rebellion had dragged along for nearly ten years, while the present insurrection has been in

progress little more than a year. Whatever may have been the inspiring cause to Spanish activity against the in-surgents-whether Minister De Lome's representations or the previously formed deter-mination of the heads of the Spanish gov-ernment-it is known officially that Spain is about to open a campaign of far greater energy than any thus far taken. The wet season has prevented the movement of troops and the maintenance of an aggressive campaign, but the dry season begins about three weeks hence, and this will be the signal, it is said, for extended move-A cordon consisting of a line of gunboats will surround the island to prevent the lanuing of arms or ammuniion for the insurgents, and without arms from the outside it is believed they soon will be helpless. They are very small, not much larger than a steam yacht, but are well-armed and are of such light draught that they can run in the keys that surround the bays. They will form the inner cordor around the island. Outside will be the sec ond cordon, made up of the Conde de Venadito and other large ships which Spain has in Cuban waters. With the island thus cut off from without, General Campos will push the fighting from within. It is expected by Spanish officials that this forward movement will change the entire aspect of the conflict, from one of minor skirmishes to extensive battles. The sentiment among Spanish authorities is that a decisive forward movement is essential and the coming campaign is relied on to meet

There was evidence of a restive feeling in the House of Deputies over the constitutional revision controversy John S. Dean Hoffman reported that daily sessions of the commissions were being held, and a report would be presented at the earliest possible moment—probably Monday. Americans to Be Protected. WASHINGTON, Oct. 11.-By request of Minister Terrell, for the protection of American missionaries in Turkey, and at the instance of the State Department, the Navy Department has ordered the Marblehead to the Gulf of Iskanderoon (Gulf of Alexandretta.) Minister Terrell also telegraphs that orders mave been issued for all provinces to protect Americans. It is not believed that there is imminent danger of outbreak, but the ship has been ordered to Turkey rather as a precautionary measure. Last Summer Admiral Kirkland took his two Ships, the San Francisco and the Marblehead, into these same waters. There was no actual rioting in progress, but the situation had a threatening aspect. Though the American war ships could not get near the most disturbed provinces, the effect of their presence on the coast was most salutary, impressing the people, who perhaps never before had seen an American manof-war, with a visible sense of the power of this country. It is surmised that Min-ister Terrell feels the time is now opportune to revive this impression. The State Department is gratified with the energetic course of Minister Terrell, and his dispatch indicates that he has forestalled the representatives of other powers and se-cured the compliance of the Porte with his demand, made early in the week, that steps e taken to protect Americans in provinces ing until they have actually suffered outrage and assault. BRESLAU, Oct. 11 .- It is reported that Herr Liebknecht, president of the Socialist Congress, will be charged to-morrow with lese majesty on account of remarks contained in his inaugural address to the congress delivered last Monday. Herr Liebknecht remarked on that occasion that, no matter how many bayonets were at the disposal of those who wished a trial of strength with the Socialists, if the people wanted a fight, the Social Democrat was their man. He went on, then, with a direct defiance to the Emperor, referring to the latter's anti-socialist speech in the fol-lowing language: "The highest authority n the land throws down the gauntlet and usults us.
